

Merry Christmas

December 15, 2021

To All of Our Wildlife Friends,

Merry Christmas from Wildlife Works' staff, volunteers and patients. It's time to take a little respite from our animal activities to wish you and yours the merriest of Christmases and give you a snapshot of our recent activities.

We did quite a few pre-winter releases recently, including:

2 Broad-wing Hawks
3 American Kestrels
Countless Opossums

2 Screech Owls
Myriad Squirrels
A flock of songbirds

2 Great Horned Owls
Several Chipmunks

These are just at our Youngwood site! Morgan released dozens of raccoons, squirrels, rabbits, and opossums at the Mt. Pleasant location. We're currently overwintering:

3 Box Turtles
1 Grey Catbird
2 Grey Squirrels

2 Snapping Turtles
1 Green Frog
3 Red Squirrels.

1 Cedar Waxwing
2 Flying Squirrels

As winter weather comes on, we may end up with even more patients to hold over until Spring.

In each of the last three years Wildlife Works admitted more wildlings than in the previous year; even Covid didn't slow us down! Add in Morgan's facility and our admission numbers shot up fast. In 2014 WWI admitted its 10,000th patient; this year we hit the **15,000 mark!** We are very proud of this milestone; it reminds us why we do what we do. And we couldn't possibly do it without your support - financial and otherwise.

We truly appreciate everything that you, our loyal supporters, have done for us this year and in years past. If your finances allow, please consider a year-end donation to enable us to treat the increasing number of wildlings we'll be receiving. If you've made a recent donation, please accept our thanks and disregard the last sentence. If you would like to designate a donation as a holiday gift to someone, we would be happy to send them an acknowledgement card.

Have a wonderful joy-filled holiday! With great appreciation,

Beth Shoy
